MOBILE C-FRAMES

3M DBI-SALA Flexiguard C-Frame

For Safe Vehicle Inspection and Maintenance

The C-Frame System is a mobile and versatile solution designed to be positioned manually, or with the use of a tow bar (optional) and service vehicle.

The freestanding design utilizes protruding outriggers that extend below the work vehicle for stability. Available in adjustable height and fixed height models for a wide variety of applications.

Applications

- Vehicle Maintenance
- Snow Removal / De-Icing
- Cleaning
- Inspection
- Vehicle Customization

Works With

- RV's
- Tractor Trailers
- Garbage Trucks
- Snow Plows
- Airplanes
- Vans
- Buses
- Railcars
