# Learning Summary

## Industrial Rescue

### Authorized Rescuer – 8 hrs

Course #6444

## Course Goal

To understand the fundamentals of industrial rescue and develop essential skills necessary to retrieve a worker suspended in a basic fall arrest system.

## Course Assessments

Students will need to meet the following objectives to earn a certificate of completion in this course. Should a student miss one or more objectives, they may need to re-take the course in its entirety before being eligible to receive a certificate.

1. Complete all challenge questions and workbook exercises.
2. Properly perform the following tasks during the skills development sessions:
  - Workshop #1 — Essential Rescue Skills
  - Workshop #2 — Self-Rescue Techniques
  - Workshop #3 — Rescuer Operated Techniques
3. Achieve a minimum of 70% on the closed book written test.
